Covernor Tilden's Canal Message in the Legislature.

THE EFFECT IN BOTH HOUSES.

Opinion of a Democratic Senator as to the Message.

A NEW RAPID TRANSIT BILL.

ALBANY, March 19, 1875. The reception of the Governor's message on the canal frauds was the main teature of to-day's proceedings in Senate and Assembly. A few min-utes after eleven o'clock Mr. Stebbins, private Secretary to the Governor, appeared at the bar of the House with the Sergeant-at-arms and presented the document.

A BOMBSHELL TO THE CANAL RING. The reading by Mr. Calkins, in the House, oclistened to with intense attention. The attack upon the Canal Ring is looked upon by politicians re as a master-stroke on the part of Governor Tilden. Exposure of official corruption is always popular, and the people of the State may leel eply indepted to the Executive for this additional evidence of his careful guardianship of the

PREPARING THE FIGURES.

Since the early part of the present session Governor Tilden has been engaged in looking over various canal contracts and the means used in disposing of the same. His adaptability to figures, as exhibited in the ring suits, rendered the task an easy one. Now that the exposure of these rigantic frauds has come before the State the main credit is due to the efforts of Governor Tilden. His principal assistant, however, has been Mr. Emerson E. Davis, democratic member of the Assembly from Washington county. This gentleman has for years made a study of canal matters. His rooms in the Delavan have been strewn for weeks past with maps, documents and reports on canal matters. He has searched through the archives of public offices here and secret couriers were despatched to Syracuse for the purpose of interviewing former employés under canal con-

A SPECIAL ORDER FOR WEDNESDAY. Both houses having agreed to Wednesday next, immediately after the reading of the journal, as the time in which the Message will be considered, a lively discussion may then be expected. THE MESSAGE IN THE SENATE.

Two hours were occupied in the Senate over the discussion as to which was the most appropriate reference for the Message-the Canal Committee or the Committee of the Whole. With the exception of the clause referring to an appropriation it was concluded to refer the whole subject to the Committee of the Whole. The appropriation mause will be considered in the Canai Committee. Both houses were crowded by spectators during the reading of the Message, and much interest

A DEMOCRATIC SENATOR'S OPINION. Immediately after the Message was placed before the Legislature I conversed with a prominent democratic Senator as to the meaning or this special attack of Governor Tilden on the canal interest. "Why," he remarked, "it will strengthen his chances immensely for the Presidential nomination of 1876. He now stands before the country as its most prominent reformer. The popular pulse at this particular time is best touched upon the question of reform in public affairs and punishment of fraudulent officials. This Message will really place Mr. Tilden before the people as the changeless enemy of every and any ring. His services in the exposure and punsubment of the New York city ring thieves is mat-ter of history. Now he has taken hold of another powerful ring, composed both of democrats and republicans. These will meet with a similar late at his hands."

enstor Jacobs struck the keynote when he said

sension Jacobs struck the keynote when he said has handa."

Sension Jacobs struck the keynote when he said has deale to-day that this message meant an atlack upon officials high in power, and that the destate upon it should be "full and open."

WHO COMPOSE THE CANAL RING?

The question naturally arises, at this particular time, as to who compose the canal ring? Well, this is a difficult question to answer. The contracts are advertised and given out for years by the Canal Commissioners of the State who were elected at differ nt periods from both the republican and democratic parties. In the matter of extraordinary repairs the engineers in charge of different sections of the canals have had "all to say." Their certificate for the work done was necessary for presentation and approval of the Auditor before checks were drawn. Several gentlemen are at present both in Senate and Assembly, who were elected by canal influences, and who are always jound exceedingly active where canal legislation is the topic of the moment. Syracuse is supposed to be the headquarters of this canal interest. Here reside Mr. James Beiden, republican, and Mr. Henry Denisson, democrat, both gentlemen of immense wealth. It is said that they and their mends all along the line of the canals have monopolized for a considerable time some of the most profitable contracts.

In the Senate we have Senators Jarvis and Wood and in the House Messrs. Willard, Jonison and T. G. Alvord, who have taken a deep liking to canal matters and are always jound on one side or the other in canal controversies. The litter foe and opponent of all canal schemes in the Assembly has been Mr. Dayls.

Another Rapid Transit Bill.

Mr. James Daly to-day introduced another rapid transit bill, which virtually gives control of the matter to the Mayor and Common Council. The matter be formed under and in pursuance of an actentiled "Anact of the ormation of railroad corrections.

SHERIFF CONNER'S BILL.

The Judiciary Committee of the Senate to-day reported adversely the bill which gives the patronage of the Marine Court to Sheriff Conner.

THE PROPOSED STATE BOARD OF ACDIT.

Mr. J. R. Kennaday, from the Committee on General, Local and Special Laws, to-day reported lavorably the bill creating a State Board of Audit, to consist of three persons, who shall be appointed by the Governor.

SHOT BY HIS FATHER.

ANOTHER PAMILY QUARREL IN BROOKLYN. Another shanty tragedy occurred in Brooklyn last night, which in almost every particular resembles that which took place on the evening of St. Patrick's Day, resulting in the death of John Monaghan. At about nine o'clock Luke McDermott, who occupies one of a cluster of miserable shan ties at the corner of Bond and Degraw streets, engaged in a quarrel with his son James, aged twenty-four years, over some family matter. twenty-four years, over some family matter. The father, who is fitty-four years of age, as a laborer and a man of great physical strength. High words passed between the two men, and the eider McDermot becoming caraged at some strong language used by hir son, seized a single barrelied shot gun which was hangling en the wall and fired at him. The charge struck young McDermott in the knee-joint of the lett leg, is dicting two wounds that may prove latal. The injury will certainly make him a cripple for life. The wounded man fell to the floor, where he remained till the arrival of the police, who had been ucufied by the neighbors. He was then removed to the Long Island College Hospital. His after was locked up at the Butler street police itselon.

WASHINGTON.

FROM OUR REGULAR CORRESPONDENT.

WASHINGTON, March 19, 1875.

THE REPUBLICAN SENATORS AGREE TO AN IN-DORSEMENT OF THE KELLOGG GOVERNMENT. An adjourned cancus was held by the republican Senators this evening, at which a majority of them were present. They finally surmounted the obstacles heretofore met as to their agreement on the Freunghuysen resolution sustaining President Grant, and voted almost unanimously in favor of a resolution approving the recognition of the Kellogg government as the de facto government of Louisiana. It has not finally resolved to submit it to the Senate, and a further caucus is to be held to-morrow. While there is considerable satisfaction apparent among the republican Senators at the accomplishment of this concession on the part of such Senators as Conkling, there is vet some doubt as to the feasibility of getting it readily through the Senate. Of course it is apprehended that the democrats will oppose it and seek to talk it down. Senator Morton does not think that the Senate can adjourn to-morrow. At any rate, Senators are fast leaving, one by one, for home, as they can pair without awaiting further the deferred adjournment. Among the numper are Messrs. Cameron, Ferry, of Connecticut; Bogy, of Missouri, and Conover, of Florida, added whom will be the many who will leave before to-morrow night. On the part of other Senators who remain it is felt that the resolution will be adopted, and a prominent Western Senator to-day said it would not be left an open question.

STORMY DISCUSSION IN REGARD TO JUDGE DURELL'S SUCCESSOR. A very stormy time was had in the Senate during the executive session to-day for nearly four hours over the confirmation of Pardee as District Judge of Louisiana, vice Dureil. Senator Howe, among others, made a long speech against it, and this, with other adverse references, closed the day's deliberations on the subject. The nomination is still pending.

EFFORTS TO EXTINGUISH THE INDIAN TITLE TO THE BLACK HILLS-COMMISSIONERS TO BE APPOINTED BY THE PRESIDENT-DANGER OF A SIOUX REBELLION

Senator Ingalis, of Kansas, who is familiar with Indian affairs, states that the ratification of the treaty with the Sioux Indians was duly passed upon by the United States Senate on February 16, 1869. It was made April 29, 1868, and proclaimed in due course by Andrew Johnson as President of tne United States on Feoruary 24, 1869. The whole text will be found in the Statutes at Large, volume 15, pages 635 to 645. This removes all doubt from the title of the Indians, and by the treaty they have a vast tract of land, the large part of which is known for more than one hundred miles by twenty-five as the "Little Swamp lands," Back of them, for a region containing several square miles, are what are known as the Black Hills. As it is desired to open up this section to settlement the President has determined, upon representations made to him, to appoint three commissioners, who are to proceed at once to surrender of the title of this Black Hills region to tae United States. This is the only way in which the country thus owned and now in possession of the indians can be acquired so as to admit of white settlement.

Senator Ingalis further says that of this tribe, numbering about 60,000, there are about 10,000 who have always been unruly and have given great trouble to the border of Kansas and others of the States, where the settlers have periodically been driven off by the Indians. As soon as the Senate adjourns, he says, he is going among the settlers and will advise them to put themselves at once in a state of defence, by arming themselves and building stockages here and there, in which the women and children of the settlers may take refuge in case of attack by the Indians. He says that accounts from the frontier inform him that the Indians are provoked by the invasion by settlers and miners upon the Black Hills, and he looks for serious troubles when they shall become aroused, as appears probable from latest accounts near at hand. Senator Ingalis is evidently much concerned for the people on the borders of his tate should the Stoux take the war path.

GENERAL WASHINGTON DESPATCHES.

WASHINGTON, March 19, 1875. UNJUST IMPRISONMENT OF FRENCH EMIGRANTS-

Bark Cremona Gove, Liverpool 25 days, in ballast, to George, were brought into the Oriminal Court from the jail, after an imprisonment of over four months, where they had been confined on the charge of horse stealing. There being no evidence against them they were discharged. Remaining in jail some time after a second examination, they managed, through a prisoner, to convey word to the French Legation, and accordingly Marquis De Chambrun called United States Attorney Fisher's attention to the facts, who investigated them and iound the commitment entirely informal. Considerable lunds were raised charge of horse stealing. There being no evitirely informal. Considerable funds were raised for them from the French residents in Washington, and last night they left for the South, for the purpose of optaining some land to settle upon. after which they will send for their families. These men left their homes for the purpose of buying land in this country to establish a settlement and become engaged in grape culture, and, if successiui, their intention was to have others of their friends come to this country. Their imprisonment has somewhat retarded them, but they have started withat with considerable vigor.

CONFIRMATION OF IMPORTANT APPOINTMENTS. The nominations of Isaac G. Parker to be United States District Judge for the Western District of Arkansas; Henry B. Brown, United States Judge for the District of Michigan, and David L. Lowe Chief Justice of the Supreme Court of Utah, in place of sudge McKean, were confirmed by the Senate to-day in executive session.

AMUSEMENTS.

LYCEUM THEATRE-RISTORL

The Lyceum was crowded to the doors last evening, every seat being taken, on occasion of Ristori's Marie Antoinette. Such a dramatic subject cannot fall at all times to attract the public mind. Across the broad pages of history there is one ominous blot, the first French Revolution. Though it may have been the uprising of a people ground for centuries beneath the heel of aristocracy and reduced below the level of beasts. God grant the world will never see its like again. Paris became an uncaged menagerie; and yet we doubt if the denizens of the forest could manilest such an insattate thirst for blood as those women, children and men of '93. Historians and women, children and men of '93. Historians and novelists have striven in vain to portray the horrors of the Reign of Terror, and it remains yet an unwritten epic of blood. Glacommetti has attempted to portray some of its scenes in a desultory, talkative, rambling play, which has attempted to portray some of its scenes in a grand field in which it might display itself. And no greater ribute can be paid to this queen of the stage than the fact that for more than four hours she holds the audience in complete subjection, in perfect abeyance. The stormy scenes of the great event of history acquire a new and terrible interest in her hands. To-day at the matinée she appears as Lucrezia Borgia, and no one should miss such a remarkable performance.

STEINWAY HALL-M. LAURENT'S CONCERT. An exceedingly small audience went to Steinway Hall lest night to hear a newly arrived planist, M. Laurent. He was assisted by an orchestra-a contraito, Miss Norton; a violinist, Mr. Matzka, and a violinceilist, Mr. Bergner. M. Laurent ap-peared in the G minor concerte of Mendelssohn, an etude of his own, a trio of Beethoven and Prudent's "Lucia" fantasis. As a virtuose he did dent's "Lucia" factasia. As a virtuose he did
not exhibit qualifies superior to any of our local
artists and, in fact, was far inferior to some of
them. He has not yet emancipated nimself
from the routine of the Conservatore,
and is hardly out of the pupil's swadging
ciothes. A hard, unsympathelic touch and unsatisfiactory style of phrasing are the characteristics of his playing. His compositions do not call
for commendation in any sense of the work, and
the contraite did not attain success. We have so
meny excellent panists in his city tout atrangers,
unices of the Rubenstein order, have hard work

before them to convince the public that they possess attractions of more than ordinary kind. The concert and the attendance last evening showed it.

LAST PHILHARMONIC REHEARSAL The Academy of Music was crowded from parquet to dome yesterday atternoon, on occasion of the last renearsal for the fith concert of the New York Philharmonic Society. It was really the best house of the season, which, generally speaking, has been a disastrous one for the society. Such a large attendance is a good augury for to-night's concert, and may lift the members out of the slough of financial despond in which they have been plunged during this unfortunate season. The concert programme this evening consists of the following: the following:

Symphony No. 1 in D major.

Coucerto—For the violin thew)... Damrosch
with orchestral accompaniment.

Mr. Leopold Damrosch.
